

Java Software Engineer (m/w)

Be the missing link in our chain! Be part of our family!

Join **sunhill technologies GmbH** and influence the **future of mobility and payment** by fulfilling exciting and challenging projects. We are looking for motivated individuals to work on cutting-edge technologies with sunhill's big variety of partners. As a subsidiary of Volkswagen Financial Services AG, we keep the agile start-up spirit alive while leveraging the global reach of a worldwide successful automotive player.

Join our international team to manage, develop and scale mobile payment systems for a global market.

You will be involved in the design and implementation of our state-of-the-art technical solutions:

- Build the digitalized future with backend solutions for electric car charging, parking payment, truck fuelling, public transport, ski ticketing and more
- Work on several projects and influence the decision-making process for innovative technical and business solutions

You should be able to offer:

- University degree in Computer Science or an equivalent IT knowledge
- Work experience in Java programming language and its eco-system
- Practical knowledge in implementing and consuming REST APIs
- Drive for excellent technical solutions without going overboard
- Strong interest in agile development practices

The following skills are considered a "plus":

- Experience with the Java stack of our existing systems (Dropwizard, Jersey, JPA (Hibernate), etc.)
- Knowledge of state-of-the-art technology and design, e.g. NoSQL databases, build systems
- DevOps experience deploying and operating Java microservices to a container-based environment on Linux

What we can offer you:

- A young and international company culture in a start-up work environment
- Strong team spirit and regular team building events
- Top notch development environment, e.g. IntelliJ IDEA, GitLab, Jenkins
- "Flex-time" employment
- Competitive salary and additional performance-based rewards
- Support for further education, training and professional development

Please send your application to jobs@sunhill-technologies.com and help us develop mobility and payment solutions!
