

iOS Developer (m/f)

Be the missing link in our chain! Be part of our family!

Join **sunhill technologies GmbH** and influence the **future of mobility and payment** by fulfilling exciting and challenging projects. We are looking for motivated individuals to work on cutting-edge technologies with sunhill's big variety of partners. As a subsidiary of Volkswagen Financial Services AG, we keep the agile start-up spirit alive while leveraging the global reach of a worldwide successful automotive player.

Join our international team to manage, develop and scale mobile payment systems for a global market.

You will be involved in the design and implementation of our state-of-the-art technical solutions:

- Development of iOS applications for smartphones and tablets
- Build the digitalized future with backend solutions for charging electric cars, parking payment, truck fueling, public transport, ski ticketing, etc.
- Working across several projects and influencing technical as well as business decisions

You should be able to offer:

- Experience in Swift 3, Objective-C and Cocoa Touch Framework
- Experience using version control systems, particularly Git
- Experience handling Apple certificate and profile management
- Very good English language skills, motivation and team player attitude
- Interest in agile development practices

The following skills are considered a "plus":

- Writing reactive code with reactive frameworks for Swift and Objective-C
- Cocoapods
- Distribution process
- Architectural patterns: MVVM, VIPER
- Photoshop

What we can offer you:

- A young and international company culture in a start-up work environment
- Top notch development environment, e.g. IntelliJ IDEA, GitLab, Jenkins
- "Flex-time" employment
- Competitive salary and additional performance-based rewards
- Support for further education, training and professional development

Please send your application to jobs@sunhill-technologies.com and help us develop mobility and payment solutions!
