

# Team Lead Product Management travipay (m/w)

Join **sunhill technologies GmbH** and **influence the future of mobility and payment** by fulfilling exciting and challenging projects. We are looking for motivated individuals to work on cutting-edge technologies with sunhill's big variety of partners. As a **subsidiary of Volkswagen Financial Services AG**, we keep the agile start-up spirit alive while leveraging the global reach of a worldwide successful automotive player.

You are looking for team spirit, creativity and an openness to new ideas? You have a passion for new technologies? What are you waiting for? **Join our international team to manage, develop and scale mobile payment systems for a global market.**

## You will be involved in the design and implementation of our state-of-the-art technical solutions:

- Define goals, product strategy and monitor KPIs for our travipay mobile and web applications
- Overall agile project management (e.g. SCRUM) and coordination of development
- Product development based on customer needs and economical strategies
- Communicating with external customers & partners, e.g. in order to research product requirements
- Guiding the product team towards scalable and user-friendly solutions
- Support the management team in strategic projects and with strategic partners
- Lead a team of > 5 international colleagues and assure operational excellence and high team productivity/ motivation/ performance

## You should be able to offer:

- > 5 years of professional experience, preferably in the area of #mobility services #parking #IT #SaaS #MobileApps #startups #automotive #consulting
- Academic background in business administration/economic, information management or any other equivalent academic degree

- Fluency in English, language skills in German and other languages are a plus
- Strong team player and ability to lead & motivate your team members
- Excellent communication, organizational and analytical skills
- 

## What we can offer you:

- A young and international company culture in a start-up work environment
- Strong team spirit and regular team building events
- Top notch development environment, e.g. IntelliJ IDEA, GitLab, Jenkins
- "Flex-time" employment
- Competitive salary and additional performance-based rewards
- Support for further education, training and professional development
